held on the fourth Thursday in May, are to have the privilege of ratifying or rejecting this revolutionary arrangement of secession. The revolutionists expect to carry it, as they have carried the State Convention, by the sheer force of terrorism. But let the armies of the United States, meantime, move upon Richmond and occupy it, and from that point let the General in occupation, under the authority of the President of the United States, issue a proclamation guaranteeing full protection to the freedom of the elective franchise, and a proper punishment to all offenders against this right, and we predict that the people of Virginia will overthrow all these secession contrivances and stick to the Union. Give them a chance; for thus the Old Dominion may be saved, in spite of the folly of her revolutionary mob, mainly composed of men who have little or nothing themselves to lose in hurrying her headlong to

OUR DANGERS FROM SOUTHERN PIRATES-LET US HAVE AN EFFICIENT BLOCKADE.—The general government set up by the revolted States has resolved upon letters of marque and from Virginia to New Orleans the rebels are preparing numerous vessels, steamers and sailing craft, to play the role of piracy against the commerce of the United States along our Southern Atlantic seaboard and in the Guif o' Mexico. Thus, at Richmond, the two fine seagoing steamers Yorktown and Jamestown have been seized, and are being fitted up for piratical purposes. The steamer Nashville, at Charleston, and the unfortunate steamers Star of the West and Habana, at New Orleans, are undergoing the same transformation, from peaceable passenger ships into prowling Algerines. Then there are several revenue cutters seized by the Confederates, and all sorts of sailing craft ready or in course of preparation for the same service. The Confederate Congress reassembled at Montgomery, Alabama, yesterday, and its first business, no doubt, will be to give to this system of piracy the forms of

Our government at Washington, and each of the loyal States of the Union, and our mercantile, ship building and ship sailing interests, should, therefore, co-operate promptly and liberally to secure an efficient blockade of every Southern port, bay creek, river or inlet, from the outlet of Chesapeake Bay to the mouth of the Rio Grande, in order to prevent means and munitions of war from going into the revolted States by sea, and in order to prevent their pirates from coming out. From the scores and hundreds of skilful Southern officers, late of the United States Navy, who have resigned, and who have thus cast themselves loose upon the world, the Montgomery government will be able to find competent officers for their piratical ships, and the surest way to prevent their contemplated robberies on the sea is to lock them up under an efficient blockade. Our Board of Underwriters have taken this subject into consideration, and our Chamber of Commerce would do well to proceed at once to some active volunteer assistance to our government in this mat-

a good deal of uncertainty and some anxiety bout the mode in which the families of the soldiers of the militia and volunteer companies are to be sustained out of the volunteer funds, during the absence of the men. Money has been, and no doubt will be, liberally contributed for this purpose; but some place should be promulgated by which such of the wives and children of the absent soldiers as may need support, can be regularly supplied with funds. It may be that but a few of our gallant volunteers leave their families wholly unprovided for; but it would be a great consolation to those who have leave behind them will be taken care of, and their wants supplied with absolute certainty and as little inconvenience as possible.

THE FAMILIES OF THE VOLUNTEERS .- There is

Would it not be well to organize a General Distributing Committee for this purpose, with branch offices located in different districts of the city? The Colonel of every regiment might leave a copy of his roll with this committee before his departure, and the families of such soldiers as may need support could thus obtain a regular weekly or monthly allowance upon application at the pay office of their district. Or, in cases where funds have been raised for particular regimente, the same plan might be carried out But we think it is important that before any more troops leave the city some specific mode of distributing the funds for the maintenance of the families of the volunters should be decided upon and publicly accounced.

THOSE TWENTY DAYS' GRACE NEARLY EX-PIRED -In President Lincoln's war proclamation. "done at the city of Washington, on the diffeenth day of April," the following important passage occurs:-

ant passage occurs:—

I doesn it preper to say that the first service assigned to the forces hereby cannot north will probably be to represent the forte, piaces and property which have been seized from the Union; and in every event the unions care will be observed, consistently with the objects aforesais, to avoid any derastation, any destruction of or interference with property, or any disturbance of peaceful citizens in any part of the country; and I hereby command the persons comparing the combinations aforesaid to dispurse and retire peace-ably to their respective aboves within twenty days from this date.

The "combinations" here referred to

The "combinations" here referred to are the hostile combinations in the revolted States against the laws and authority of the United States. These 'combinations" are warned to disperse within twenty days from the notice given, a term of grace which will expire on the 5th of May. The defensive policy of the government ceases after that day; so that within the next few days we may expect to hear tha General Scott has adopted the offensive system. and has set in motion some twenty or thirty thousand men for the occupation of Richmond or Baltimore. This is the meaning of those twenty days' notice.

"EXECRABLE NEW YORK."-Under this sug gestive caption, we publish from the Richmond (Va.). Despatch a very ferocious editorial of that ferocious little secession organ. We dare say that New York will survive it; and it is quite possible that our Seventh regiment may comply with the invitation to visit Richmond again sooner than they are expected. We predict, too, in this eyent, that from the people of Richwond, even as enemies, the men of the Seventh. fron their gallantry, bravery and magnanimity, "wil have such a reception as they will de serve." They rush to save Virginia and to restore her to the Union. The great mistake of our Seuthern revolutionary brethren was, that in appealing to war, to break up the Union, they would have a united South against a divided North. New York city dissipates that delusion, and that tells the story.

WASHINGTON NOT INTENDED TO BE ATTACK PD.—It is now said that the secessionists never intended to make an attack on Washington, But does any one believe that the men who seized the forts, and arsenals and money of the government ever hesitated about seizing the federal capital, the archives and property of the nation, if they were able? They did undoubtedly mean to take possession of Washington if they were strong enough, and, moreover, they still intend to do it if they can. It is for this purpose that they are concentrating troops in Northern Virginia, and they captured Harper's Ferry with the design of moving from that point by the railroad to Baltimore, of which road they hold possession, and thus making Baltimore the basis of operations, and they mean to try it yet.

This piece of strategy, therefore, shows how important it is for the government to take possession of Baltimore, and to hold all Maryland in subjection with their troops, and, if needs be, to push the war on to Richmond, and regain possession of Harper's Ferry and the Norfolk Navy Yard, and this, too, promptly and vigorously. The assertion that no attack upon Washington ever was or is now intended by the rebel army is a mere pretence to cover their designs.

The action of the Ministry in disbanding the Southern army and the measures taken for its reorganization were debated. Garbandi made a speech so violent that if excited tumult in the Chamber. He made offensive a flustens to the Ministry, spainat which Count Cavour protested. The President of the Chamber put on his hat, and sitting was suspended for a brief interval. Garbaldi in resuming spoke with more moderation. He defended his comrades in arms, and said the formation of three divisions of volunteers, as decreed, was not sufficient for the inthocal armsment. General Bixis made a conciliatory speech. Count Cavour said he accepted the mode of conciliation. Garbaldi explained the several feets alloded to by Count Cavour, and expressed his belief that Count Cavour loved Italy. The above named vessel, from Bremen and Sauthump ton, went ashore, while under the charge of a pilot shortly after nine o'clock, on Sunday evening A strong breeze was blowing at the time. Notwithstanding this, the shock was not con-sidered severe when itstruck, and it did not cause any serious damage. At an early hour yesterday morning intelligence of the steamer's situation was received in this city, causing a momentary, unnecessary alarm for its safety. At about ten o'cleck A. M., Collector Barney despatched the steamer Mercury, Captain J. C. Lowber, to the assistance of the Bremen, the forme reaching the latter about eleven o'clock. After consider roughness of the sea, four revenue officers succeeded to swinging themselves from the bow of the Morcary into the gangway of the Bremen. 518 808 The decline in specie is larger than was expected, as the banks received nearly a million from California during the week, and the Sub-Treasury has not gained money. The impression prevails that Southern depositors are drawing out their money in coin, and shipping it, by some means or other, to the South. The District Attorney should look to it. The banks of New York will pay all drafts drawn by parties who have balances here to their credit; after the money is out of their hands it is the District Attorney's province to act. In

the leans and deposits there is no change to notice. The money market is very dull, but rates are higher. Seven per cent is now the minimum rate for the best paper, no matter how short. Many names which were current a few days ago will not pass now. Failures continue to occur both in the dry goods and in the grocery trade, and capitalists operate with great caution. Southern debtors announce their fixed determination to pay no Northern debts so long as the war lasts.

Foreign exchange is very dull. Bankers ask 105½ for their sterling bills, but there is no de. mand. A few bills were sold at 105 for sterling, and some francs were placed at 5.37%. The mar-tet looked quite heavy to-day.

Stocks improved this morning on the intelligence of the safety of Washington, and the probable return of Maryland to common sense. Strange to say, the border slave State stocks were all better; Virginias rose 7; Tennessees, 8; Missouris, 4; North Carolinas, 6. The business at the advance was moderate. A motion was introduced in the Board to strike from the list the stocks of all the States proclaimed to be in rebellion. It was negatived, on the ground that the daily registration in the stock sales of low quotations for these stocks conveyed a practical rebuke to treason, which was not without usefulness. people will discover that they have been duped in the matter of these border State stocks. They are absolutely worthless. In a few days the West will begin to pour them into our market from the banks. At the first board this morning Central rose 1/6; Erie, 1/6; Hud-son, 1/4; Reading, 1/4; Panama, 1; Michigan Central 1; guaranteed, 1/4; Illinois Central, 1/4; Toledo, 1/2; Rock Island, 1. Between the boards prices fell off a fraction: in the afternoon the market was dull, closing weak. Governments were a fraction better to-day. A vigorous blow struck by President Lincoln at the rebels would improve the price of federal securities; they decline on the apprehension that some settlement or compromise may be made which will demoralize the country, and prove the ruin of our national existence. The following were the last quotations to-day:-United States 5's, 1874, 75 a 7634; Tennessee 6's, 50 a 50; Virginia 6's, 461/4 a 47; Missouri 6's, 40 a 40; Canton, 8 a 9; Cumberland Coal preferred, 5 a 6; Delaware and Hudson Canal, 82 a 83; Pennsylvania Coal, 72 a 73; Pacific Mail Steamship, 681/4 a 69; New York Central, 72% a 72%; Erie, 20% a 21; Hudson River, 361/2 a 37; Harlem, 121/2 a 125/4; do. preferred, 32 a 321/4; Reading, 311/4 a 32; Michi gan Central, 441/2 a 45; Michigan Southern and Northern Indiana, 131/4 a 131/4; do. guaranteed, 28% a 29%; Panama, 101 a 103; Illinois Central, 581/4 a 58%; Galena and Chicago, 571/4 a 57%; Cleveland and Toledo, 23% a 24; Chicago and Rock Island, 371/4 a 373/4: Chicago, Burlington and Quincy, 56 a 59; Milwaukee and Mississippi, 91/4 a 9%; La Crosse and Milwaukee land grant, 5 a 9;

For Oblo and Indiana currency the rates were 3, premium buying and 3, premium selling; and for Kentucky, 23/ premium buying and 3 a 33/ premium selling. The destines were chiefly in the latter, people bolding on to the better currency. The volume of Kentucky potes is steadily diminishing, and at the rate at which it is being returned, the burden must soon be removed. Rankers are sending it bome as fast as possible. The cemand for gold for Kentucky paper was brick at 5 premium. For Ohlo and Indiana it was sold at 1 premium. Nothing done in New Orleans or Baltimore. The bankers were to day potified by the express companies that they will not, hereafter, until further notice, carry money packages for points in the second States, for Baltimore, or any place in Virginia except Wheeling. This will interfere with the dealings in the bank notes of those States. Louisiana which advanced yesterday to 5 discount, bas sgring failed back to 10 ciscount. We make no change in other quotations; but it is difficult to effect sales, there being a general indisposition to invest in any description of uncurrent funds.
